

Palso Preveza-Lefkada World Environment Day Trip

Sunday 9th June 2019

Help protect our beautiful planet by joining us for our World Environment Day trip to Koronisia and the Amvrakikos Gulf. There we will clean up rubbish from the beach and check the air quality to see what effect air pollution is having in the area. Then we will go on a **boat cruise** around the Gulf where we will see **dolphins, loggerhead turtles, flamingos, pelicans** and other wildlife and birds that inhabit the region, thereby observing the environment and animals that our actions affect. Finally, we will finish the day with a seafood barbecue near the beach.
